CORETECH BRACING

Give Your Patients the Best in Orthopedic Bracing

Professionally designed to provide the ultimate combination of comfort and support. Your patients and fitters will be provided with complete instructions on how to use and apply the braces for increased patient satisfaction. Vive Health also provides 1-on-1 customer support in the case that more personal assistance is required.

All Coretech braces are HCPCS / PDAC approved. An essentials collection, including only the most popular orthopedic supports. Coretech is a trusted brand for leading orthopedic surgeons, podiatrists, hospitals and more.

coretech

626 LUMBAR BRACE

BY CORETECH
SUP2031

HCPCS: L0626 / L0641

- Providing exceptional support, the lumbar brace includes wide, easy pull tabs to customize the level of compression.
- Includes rigid back panels and anterior supports for optimal lumbar support and trunk stability.
- Easily adjust the side panels for a comfortable fit for most adults.

coretech

631 LUMBAR BRACE

BY CORETECH
SUP2025

HCPCS: L0631 / L0648

- Featuring wide pull tabs, the brace utilizes a secure pulley system for customizable compression and support.
- Includes an elongated rigid back panel for exceptional lumbar support.
- Easily adjust the side panels of the brace to fit waist sizes ranging from 25" to 50".

coretech

637 LUMBAR BRACE

BY CORETECH
SUP2026

HCPCS: L0637 / L0650

- Featuring wide pull tabs, the brace utilizes a secure pulley system for customizable compression and support.
- Easily adjust the side panels of the brace to fit waist sizes ranging from 25" to 50".
- Lightly padded for greater comfort, the brace is made with a soft, lightweight fabric blend.

coretech

627 LUMBAR BRACE

BY CORETECH
SUP2048

HCPCS: L0627 / L0642

- Features a secure pulley system for customizable compression.
- Includes a rigid back panel and anterior supports for exceptional lumbar support and trunk stability.
- Easily adjust the fit of the brace with the removable side panels.

360 EXO WALKER TALL

BY CORETECH

SUP2032

HCPCS: L4360/L4361

- Easily inflate and adjust the walker boot liner for optimal compression support and greater comfort.
- Non-marking, the textured rocker sole provides greater traction and promotes a natural gait.
- The walker boot includes a shin and toe guard for additional support and protection.
- The exterior walker boot is constructed with a durable composite material that is lightweight for easier mobility.

SIZES: TALL

360 EXO WALKER SHORT

BY CORETECH

SUP2033

HCPCS: L4360/L4361

- Easily inflate and adjust the walker boot liner for optimal compression support and greater comfort.
- Non-marking, the textured rocker sole provides greater traction and promotes a natural gait.
- The walker boot includes a shin and toe guard for additional support and protection.
- The exterior walker boot is constructed with a durable composite material that is lightweight for easier mobility.

SIZES: SHORT

coretech

360 WALKER TALL

BY CORETECH
SUP2028

HCPCS: L4360 / L4361

- Non marking, the textured, non slip rocker sole promotes a natural gait.
- Constructed with a durable composite material that is lightweight for easier mobility.
- Easily inflate and adjust the walker boot liner for optimal support and comfort.

SIZES: TALL

coretech

360 WALKER SHORT

BY CORETECH
SUP2029

HCPCS: L4360 / L4361

- Non marking, the textured, non slip rocker sole promotes a natural gait.
- Constructed with a durable composite material that is lightweight for easier mobility.
- Easily inflate and adjust the walker boot liner for optimal support and comfort.

SIZES: SHORT

coretech

386 WALKER TALL

BY CORETECH
SUP2034

HCPCS: L4386/L4387

- Non-marking, the textured rocker sole promotes a natural gait.
- Constructed with a durable composite material that is exceptionally lightweight for easier mobility.
- Removable for easy cleaning, the walking boot liner is generously padded for greater comfort.

SIZES: TALL

coretech

386 WALKER SHORT

BY CORETECH
SUP2035

HCPCS: L4386/L4387

- Non-marking, the textured rocker sole promotes a natural gait.
- Constructed with a durable composite material that is exceptionally lightweight for easier mobility.
- Removable for easy cleaning, the walking boot liner is generously padded for greater comfort.

SIZES: SHORT

396 DORSAL NIGHT SPLINT

BY CORETECH
SUP2045/SUP2046
HCPCS: L4398

- Gently stretches and properly positions the foot and ankle throughout the night to relieve pain due to plantar fasciitis, soft tissue damage, arthritis and foot drop.
- Featuring an open toe and heel, the low profile splint is comfortable for side, stomach or back sleepers.

VARIATIONS: RIGHT & LEFT

930 AFO

BY CORETECH
SUP2036/SUP2037
HCPCS: L1930

- Lightweight ankle foot orthosis brace provides static dorsiflexion and lateral support for ankle instability and foot drop caused by a variety of conditions.
- Rigid sole plate may be trimmed with standard household scissors for a personalized fit.

VARIATIONS: RIGHT & LEFT

906 MOTION ANKLE

BY CORETECH
SUP2044
HCPCS: L1906

- Hinged for greater mobility, the motion ankle support stabilizes the ankle to prevent re-injury and promote natural healing.
- Featuring a low, neutral arch and an open heel, the motion ankle base fits in most athletic and casual shoes.

VARIATIONS: RIGHT & LEFT

350 ANKLE AIR SPLINT

BY CORETECH
SUP2043
HCPCS: L4350

- Designed to provide stabilizing support for ankle sprains, injury, and instability.
- Inflatable side panels stabilize the ankle and increase circulation with therapeutic compression.
- Includes a small hand pump to adjust the pre-inflated side air panels.

908 WRIST SPLINT

BY CORETECH
SUP2038/SUP2039
HCPCS: L3908 / L3906

- Two flexible splints, adjustable support.
- Removable for greater flexibility when needed, the wrist brace includes one rigid aluminum splint to immobilize the wrist.
- Secure fastener straps are easily adjustable for a personalized fit.

VARIATIONS: RIGHT & LEFT

807 THUMB SPLINT

BY CORETECH
SUP2040/SUP2041
HCPCS: L3807 / L3809

- Limiting movement of the thumb, the thumb brace includes one rigid splint that is removable when more flexibility is needed.
- Each strap is easily adjustable for a personalized fit.
- Flexible side splints, adjustable fit.

VARIATIONS: RIGHT & LEFT

843 OA KNEE BRACE

BY CORETECH
 SUP2027
 HCPCS: L1843 / L1851

- Offloading knee support reduces pressure on the knee, relieving pain from osteoarthritis, sports injuries, and more.
- The OA knee brace includes twelve hinge clips to control the range of motion for optimal support and relief.
- Lightly padded brace includes silicone grip lines for a secure, non-slip fit.
- Each adjustable strap is secured with a quick-release buckle for ease of use.

VARIATIONS: LEFT OR RIGHT

830 TRI-PANEL KNEE IMMOBILIZER BY CORETECH

SUP2047
 HCPCS: L3960

- Adjustable panel design comfortably accommodates most thigh and calf sizes.
- Includes four aluminum stays for complete immobilization of the knee.
- Two additional sponge pads provide extra cushioning along the knee as needed.

SIZES:
 12", 14", 16", 18", 20", 22", & 24"

180 CERVICAL COLLAR

BY CORETECH
 SUP2049
 HCPCS: L0180

- A rigid composite exterior provides added support to relieve pain associated with sprains, strains, & whiplash.
- Lightly padding the brace, the interior lining is made with a comfortably soft terry cloth.
- Easily adjust the cervical brace to fit neck circumference between 13" to 19".

960 ARM SLING

BY CORETECH
 SUP2042
 HCPCS: L3960 / L3670

- Easily adjust the rotation and position of the arm abduction base for optimal support.
- Designed to provide a comfortable, personalized fit to prevent anterior migration.
- Reversible, the Coretech arm sling length can be adjusted to ensure a proper fit.

BRACING & SUPPORTS

GET WHERE YOU WANT TO GO

Getting back to 100% is a process. Our braces and supports are designed to take you all the way from post surgery to back in action. A progressive range of options for each body part provides a complete selection for all major and minor injuries. Browsing the collection you will find everything from mild woven supports to rigid ROM bracing.

All of our supports are constructed from premium material to provide a comfortable all-day wear. Thoughtfully designed to maximize fitting range to accommodate you through swelling and recovery. Our hot and cold bracing is integrated with Arctic Flex ice packs, which have quickly become the industry leader in hot and cold therapy.

A RECOVERY ESSENTIAL

Braces Integrated With **Arctic Flex** Gel Cold Packs

Feel the difference of the most **advanced cold and hot therapy** packs. Proven to stay colder longer, Arctic Flex technology even stays flexible when frozen. The ice packs are integrated directly into the brace to provide full-coverage icing of your injury along with complete freedom of mobility. Do not allow ice therapy to keep you on the couch and avoid fumbling to get your ice pack to the perfect spot. The Arctic Flex packs also work just as well for heat.

Made with a latex-free vinyl exterior, Arctic Flex packs are **perfect for all ages and skin types**. Our superior non-toxic clay gel stays cold or hot for long lasting relief.

HEALTH DEVICES

TAKE CONTROL OF YOUR HEALTH

Understanding your vitals is the foundation of understanding your health. Trusted devices by Vive Precision are created with clinical accuracy to provide a gateway to your body. Simple and intuitive enough to use from home yet powerful enough for a clinical setting, the Vive Health Devices collection gets you the data you need.

An important piece of taking your measurements is storing and interpreting them over the long term. The Vive Precision app was created to connect your smartphone with our compatible devices. The app keeps track of all your readings in one convenient location and allows for an email export to easily send to a healthcare provider or loved one. Staying on top of your health has never been this easy.

BATHROOM SCALE

BY VIVE PRECISION

The Vive Precision Body Fat Scale easily connects with iOS and Android devices through the Vive Precision app.

vive®

PRECISION

Connect your Vive Precision device to track, monitor and share your health readings.

When connected to the Vive Precision app, measurements and readings from your Vive Precision devices can be seamlessly transferred and stored. The simple reminder system allows you to create custom reminders and notifications for taking measurements. Easy-to-read graphs are automatically updated with each reading that is entered into the app. Your health data can then be sent to a loved one or physician with the push of a button. The Vive Precision app offers unlimited storage so there is never a worry about the number of measurements you can store.

Download the Vive Precision app now in the Apple or Google Play store to get started!

SIZE: XS-XL

vivesole®

Biometrically designed for proper alignment, the Plantar Series orthotics are the ultimate OTC solution for plantar fasciitis relief. The orthotic is composed of a lightweight EVA which contains a deep heel cup to ensure your foot aligns properly on the raised arch. The arch is positioned for greater stability and built to support proper positioning and height. Both the heel and the forefoot have a high-density cushion. The cushions are strategically located where the foot take the most impact and helps to absorb shock from every step. If you are seeking an affordable alternative to custom orthotics the Plantar Series and Plantar Plus orthotics by ViveSole are a trusted & proven favorite.
